5 510 dartfish team pro 4 4 330 4 440 I would really appreciate any help, thank you! A: Try this: Change your code as below: int columnIndex = 6; // or you can use the switch statement var teamPro7 = new Row(children: [new Column(children: [new Text("$j1", style: new TextStyle(fontSize: 30.0, color: Colors.black),), new Text("$j2", style: new TextStyle(fontSize: 30.0, color: Colors.black),), new Text("$j3", style: new TextStyle(fontSize: 30.0, color: Colors.black),),],), new Text("$k1", style: new TextStyle(fontSize: 30.0, color: Colors.black),), new Text("$k2", style: new TextStyle(fontSize: 30.0, color: Colors.black),), new Text("$k3", style: new TextStyle(fontSize: 30.0, color: Colors.black),), new Text("$l1", style: new TextStyle(fontSize: 30.0, color: Colors.black),), new Text("$l2", style: new TextStyle(fontSize: 30.0, color: Colors.black),), 82157476af
